

CUMULATIVE INDEX: VOLUME 9

SUBJECT INDEX

- Abdominal circumference, ultrasonic measurement, intra- and interobserver variation, 385-387
- Abdominal cord insertion, and transvaginal sonography, 344
- Abdominal cystic hygroma, 128
- Acidosis, fetal, 383
findings in, 351
as risk factor for severely SGA fetuses, 137
- Acquired immunodeficiency syndrome (AIDS), attitudes toward neonates at risk for, 514
- Alpha-fetoprotein (AFP), 127
and hypertension, 319-321
- Amniocentesis
in diagnosing congenital chloride diarrhea, 400
fetal response to, 381-383
- Amnioinfusion
defined, 51
and recurring bilateral renal agenesis, 49-51
- Amniotic fluid
assessment, 315-317
bacterial growth in
effects of pH and osmolality on, 69-73
evaluating, 70
preparation of fluid samples, 70
biomarkers, for prenatal diagnosis of neural tube defects, 411
effect of gestational age on levels of volatile and non-volatile organic acids in, 452-453
evaluation of effects of freezing and lyophilization on, 70
- Amniotic fluid index, correlation with amniotic fluid volume, 315-317
- Amniotic fluid volume, and amniotic fluid index, 315-317
- Amyl nitrite, as muscle relaxant in preterm cesarean section, 289-292
- Angiotensin II, effect of magnesium sulfate on vascular action of, 477-480
- Antenatal detection and choice of delivery place of severely SGA fetuses, significance of, 135-138
- Anticardiolipin antibodies
and neonatal thrombosis, 409-410
obstetric performance in patients with, 146-151
See also Antiphospholipid antibodies
- Antigen capture enzyme-linked immunosorbent assay, 449
- Antihypertensive therapy, 464
- Antiphospholipid antibodies, 146-151, 409
clinical complications related to therapy, 149
indications for testing, 147
- Aortic root measurements, 38-40
- Aplasia cutis congenita, elevated amniotic fluid alpha-fetoprotein, and positive acetylcholinesterase band, case report, 411-412
- Apnea in premature infants, 374
caffeine in treatment of, 431
- Arginine vasopressin (AVP), renal physiologic response to, 329
- Arterial oxygen saturation, adequate, in native but not newborn newborns at high altitudes, 512-513
- Asphyxia, fetal, detecting, 350
- Atrial natriuretic factor
blood sampling, 276
defined, 275
during pregnancy and postpartum period, 275-278
peptide assay, 276
- Atypical cervical cytology, significance of in pregnancy, 340-343
- Azathioprine, 54
- Bacteria growth in amniotic fluid, effects of pH and osmolality on, 69-73
- Bactigen, 304-305
- Bayes theorem, 388
advantages of, 389
- Behavioral states
definitions of, 215
fetal heart rate pattern, 117-118
head and limb movements, 116
identification of, 116
quantifying characteristics of, 115-119
slow and rapid eye movements, 117
trunk and breathing movements, 117
- Betamethasone, effect on hypothalamic-pituitary-adrenal axis in premature neonates, 428-430
- Betamimetics, 396
- Bilateral renal agenesis
defined, 49
recurring, diagnosis by ultrasound with amnioinfusion at 18 weeks gestation, 49-51
- Bilirubin, transcutaneous measurement of, 499
- Biotinidase deficiency and neonatal neurologic symptoms in infant born to biochemically unaffected parents, 498-499
- Biparietal diameter, ultrasonic measurement, intra- and interobserver variation, 385-387
- Birth certificate, reliability of, 219-222
- Birth trauma
in insulin-dependent diabetic pregnancies, 205-208
by mode of delivery, 207
- Birthweight, newborn
easy and accurate estimation for resuscitation, 371-373
errors in assessing, 372
and length, relationship of, and occipitofrontal circumference, 372
- Blood gases
analysis in neonatal intensive care units, 159
effects of liquid and dry heparin on, 159-161
- Blood loss at elective repeat cesarean section, effect of type of anesthesia on, 197-200
- Bottle feeding
demographic and attitudinal factors influencing, 420-423
sucking pattern of neonates during, 265-269
- Bovine surfactant, follow-up of infants with multiple doses of, 503
- Brachial plexus injury, 205
- Brainstem dysfunction, and chromosomal abnormalities, 299-301
- Breast feeding, demographic and attitudinal factors influencing, 420-423

- Caffeine absorption in premature infants, developmental aspects, 431-433
- Captopril, effectiveness in renovascular hypertension, 254-257
- Carbon dioxide, use of to stimulate tidal volume, 322
- Cardiac rhabdomyoma, 111-114
- Cardiopulmonary resuscitation in very low birthweight infants, 130-133
- Carotid artery stenosis after extracorporeal membrane oxygenation repair, 513
- Catheterization for selective embolization in obstetric hemorrhage, 441-444
- procedure characteristics, 442
- subject characteristics, 442
- Cecostomy, 103
- Celiotomy, exploratory, 103
- Central nervous system (CNS) abnormalities, and small for gestational age infants, 152-153
- Central venous catheters in care of very low birthweight newborns, 154-158
- complications of, 154, 261, 262-263
- percutaneous silastic, use of in neonates, and management of infectious complications, 261-264
- vein perforation at time of insertion, 157
- Cephalohematoma, 205
- Cerclages
- emergency, 142-145
- defined, 142
- membranes bulging into vaginal vault and, 143
- most commonly used types of, 481
- Cerebral circulation in ovine fetuses, nicotine-induced changes in, 270-273
- Cervical incompetence
- diagnosis of, 481
- due to defective connective tissue in Ehlers-Danlos syndrome
- diagnosis and management of, 26
- treatment with Smith-Hodge pessary, 25-26
- surgical treatment of, 481-483
- Cervical intraepithelial neoplasia (CIN), 340
- Cervical teratoma, immature, ultrasound diagnosis of, 445-446
- Cesarean section
- blood loss associated with, 197-200
- difficult preterm, amyl nitrate as muscle relaxant in, 289-292
- indications for
- and perinatal sepsis, 30
- in small for gestational age fetuses, 136
- low transverse, 80-81
- versus classic, 290
- prior low transverse, and prostaglandin E₂ gel induction, 80-83
- and vertex-presenting fetus in prematurity, 162-163
- Chemotaxis, enhancement of, 5-8
- Chickenpox, 236
- Chinese neonatology, status of in 1983, 401-402
- Chlamydia trachomatis*, 338
- positive cervical cultures in premature rupture of membranes, 368-370
- Chloroprocaine versus lidocaine, in dorsal penile nerve block during circumcision, 214-217
- Cholinephosphate cytidyltransferase, hormonal stimulation of, 512
- Chorioamnionitis, 11, 354, 369
- diagnosis of, 13
- following premature rupture of membranes, 453
- occurrence of with penicillin prophylaxis, 13
- and perinatal sepsis, 30, 32
- preterm birth and, 43
- Chromosome deletion, 299-301
- Chronic villitis, 183, 190
- Circumcision, neonatal stress during, 214-217
- Cocaine
- effects of, on isolated, pressurized cerebral arteries, 502
- intracranial hemorrhage and, 501-502
- prenatal exposure to, effect on developmental outcome of fetus, 515
- Colon cancers, karyotypic analyses of, 107
- Colonoscopy, 103
- Colorectal carcinoma
- chemotherapy for, 107-108
- management during pregnancy, 107
- pregnancy complicated by, 102-108
- Colposcopy, 340
- Computed tomography (CT), in sinus thrombosis, 201-204
- Congenital alkalosis with diarrhea, 399
- Congenital anomalies
- as leading cause of infant mortality in developing countries, 219
- reporting of on birth certificates, 219-222
- types of, 335
- Congenital chloride diarrhea, 398-400
- characteristics, 399
- pathophysiology, 399
- prenatal diagnosis of, 400
- Congenital pulmonary hypoplasia, defined, 334
- Conventional mechanical ventilator, and meconium aspiration syndrome, 500
- Convulsions, in eclampsia, 195
- Cortisol, effect on hypothalamic-pituitary-adrenal axis, 429
- C-reactive protein (CRP), 186, 188
- Creatine kinase and its isoenzymes as marker of uterine activity, 456-458
- Cry duration, in dorsal penile nerve blocking, 215
- measurement of, 216
- Cryotherapy, respiratory complications associated with, 296-298
- Cystic adenomatoid malformation, 223
- Cystic fibrosis, neonatal screening for, 503
- Cysts, degenerated, 175-177
- Cytology, atypical, in pregnancy, 340-343
- Decidual vasculopathy, 183
- 11-Deoxycortisol, effect on hypothalamic-pituitary-adrenal axis, 429
- Diabetes mellitus in pregnancy, and periconceptual genetic counseling, 87-92
- Diabetes, types of, 87-88
- Diabetic gravidas
- categorization, 425
- group B streptococcal colonization in, 425-427
- Diabetic patients
- distribution of infant birthweights in, 486
- incidence of intrapartum fetal distress, 487
- occurrence of macrosomic infants in, 486
- preterm delivery for, 484-488
- Diaphragmatic hernia, 223
- Digitalis, and transplacental conversion of fetus, 303
- Digoxin, and supraventricular tachycardia conversion, 302-303
- Directigen, 304-305
- Disseminated intravascular coagulation (DIC), 379
- DNA hybridization, 61
- Dominant twin in utero, 460-463
- Doppler blood flow velocity analysis, fetoplacental and uteroplacental, in premature rupture of membranes, 353-355
- Doppler color flow imaging, superior sagittal sinus, 201-204
- Doppler flow velocity waveforms, uteroplacental, in normal pregnancy, 94-100
- Doppler velocimetry of umbilical artery, for nonimmune hydrops caused by fetomaternal hemorrhage, 22-23
- Dorsal penile nerve block in neonatal circumcision, 214-217
- tissue oxygenation, 216
- Down syndrome, and pulmonary hypoplasia, 9-10
- Eclampsia, late postpartum, at 20 weeks gestation, 194-195
- Edema of pregnancy, effect of daily immersion on, 225-226
- Ehlers-Danlos syndrome (EDS)
- defective connective tissue in, 25-26
- defined, 25
- Electronic fetal heart rate monitoring (EFM), 28
- Employment, and uterine contraction frequency, 490
- Enalapril, in treatment of neonatal renovascular hypertension, 254-257
- Endogenous glucose production and proteolysis in extremely low birthweight infants, 511-512
- Endovaginal ultrasound, 209
- Energy expenditure in infants with cyanotic congenital heart disease, 497
- Epidermolysis bullosa dystrophica, Hallopeau-Siemens type of, 412
- Epinephrine
- absorption after endotracheal administration, 505-506
- and splenic volume, 367
- and vasodilators, hemodynamic effects during group B streptococcal sepsis in piglets, 435-440

- Equate, 304-305
 Erb's palsy, 487
 Erythropoietin, quantitation in
 pregnancy, using enzyme-linked
 immunoassay, 233-235
Escherichia coli in amniotic fluid, growth of
 controlling, 69-73
 evaluating, in standard medium, 70
 Ethacrynic acid, relaxing effects of on
 large airways of newborn guinea
 pigs, 505
 Exosurf Neonatal, 415, 416
 External vibratory acoustic stimulation,
 in fetus with Pena-Shokeir
 syndrome, absent fetal movement
 response with blunted
 cardioacceleratory response, 1-4
 Extremely low birthweight infants
 (ELBW), 17
 Facial nerve injury, 205
 Fat emulsions, ten versus, 20
 Fat-free mass and fat, extrauterine
 accretion rates in very low birth
 weight infants, 510
 Feeding practice in an indigent
 population, 420-423
 data collection, 421
 method of analysis, 421
 Fetal acid-base status, correlation of
 response of fetal heart rate to
 scalp stimulation and, 228-232
 Fetal akinesia and hypokinesia
 sequence, 1-4
 Fetal behavioral states. *See* Behavioral
 states
 Fetal distress
 lowest fetal weight for cesarean
 section for, 18-19
 lowest gestational age for cesarean
 section for, 18
 and preeclampsia, 254
 Fetal ductal constriction, 186
 Fetal electrocardiogram, as predictor of
 pregnancy outcome, 348-352
 Fetal gender
 differences in preterm birth, 43-48
 and maternal infection, 45-47
 Fetal growth curves, sonographic, from
 an indigent population, 467-476
 Fetal growth and placental pathology,
 and preterm delivery, 190-193
 Fetal heart rate (FHR)
 accelerations, 1-4
 as standard method of assessing fetal
 status, 348
 and vibroacoustic stimulation, 228
 Fetal heart, transvaginal ultrasound
 measurement of, 38-41
 Fetal intrathorax mass
 differential diagnosis of, 224
 diminution in size of, and aggressive
 in utero management, 223-224
 Fetal lung maturation, comparison of
 in preterm singleton and twin
 pregnancies, 326-327
 Fetal monitoring in perinatal sepsis,
 28-32
 Fetal rhabdomyoma, 111-114
 Fetal risk-scoring system, evaluation of,
 388-393
 Fetomaternal hemorrhage, as cause of
 nonimmune hydrops, 22-24
 Fetus
 severely preterm, intrapartum
 management of, 17-20
 vertex-presenting, 162-163
 Fetus papyraceous, and congenital skin
 defects, 412
 Fibroids, indomethacin for, 185-189
 Fresh frozen plasma (FFP), adult, effect
 of on neonatal, neutrophil
 motility, 5-8
 Furosemide, relaxing effects of on
 large airways of newborn guinea
 pigs, 505
 Fused eyelids in extremely premature
 infant, 84-86
 as indication of nonviability, 84
 multivariate analysis of survival and
 outcome, 84-86
 Gas-liquid chromatography, in
 detecting intra-amniotic
 infection, 452-455
 Gastroduodenostomy, 102
 Gastrointestinal-genitourinary fistula,
 398
 Gastrotomy, 102
 Genetic counseling of pregnant
 diabetic patients, 87-92
 Gestational diabetes, 87
 genetic counseling for patients with,
 91-92
 and pregestational diabetes, 487
 Gestational diabetic patients, outcome
 of pregnancy in class A1 and
 A2, beyond 40 weeks gestation,
 484-488
 Glucagon, low-dose intravenous, and
 persistent neonatal
 hypoglycemia, 510
 Glucocorticoids, effect on
 hypothalamic-pituitary-adrenal
 axis, 428
 Group B streptococcal colonization
 comparison of rapid tests for
 detection of, 304-307
 in diabetic gravidas, 425-427
 Group B streptococcal sepsis,
 hemodynamic effects of
 combining epinephrine with
 nitroglycerin or nitroprusside,
 435-440
 Group B *Streptococcus* (GBS), 368, 369
 as common cause of neonatal sepsis,
 425
 Group F streptococci, perinatal
 bacteremia due to, 338-339
 Halogenated agents, during anesthesia
 for cesarean section, 197
 Handicap, freedom from, discrepancy
 between, estimated and actual
 rates, 511
 Hearing loss, and chromosomal
 abnormalities, 299-301
 Heat losses, regional, comparison of,
 243-244
 Hemangiomas, 127, 128
 Hemolysis, elevated liver tests, low
 platelet count (HELLP)
 syndrome, 378, 379
 persistent postpartum, treatment
 with plasmapheresis, 120-123
 Hemorrhagic endovascularitis, 181, 183,
 191
 Heparin, dry and liquid, comparison of
 effects on neonatal arterial blood
 gases, 159-161
 Hepatitis B virus (HBV)
 DNA-positive mothers, 61-64
 prenatal transmission of to neonates
 born to hepatitis B virus DNA-
 positive mothers, 61-64
 Hepatitis B virus (HBV) DNA,
 establishment of positivity, 62
 Hernia of midgut, ultrasonic detection
 of, 345-346
 High frequency ventilation, and
 meconium aspiration syndrome,
 500
 Home apnea monitoring, for graduates
 of NICU, 495
 Hospital discharge of term infants,
 514-515
 Human immunodeficiency virus (HIV),
 247
 Human immunodeficiency virus type 1
 (HIV-1), seroprevalence of, 293-
 295
 Human parvovirus B19 infection, fetal
 survival after, 66-68
 Hyaline membrane disease, 428
 Hydrops fetalis
 chromosomal trisomies as cause of,
 9-10
 nonimmunologic, and
 polyhydramnios, 9-10
 supraventricular tachycardia as cause
 of, 302
 Hydrothorax, right-sided, and central
 venous catheters in very low
 birthweight infants, 154-158
 Hypercapnia, 374
 Hypermagnesemia, 477
 Hypertension
 alpha-fetoprotein and, 319-321
 in neonate, 254
 severe, in pregnancy, 464
 Hyponatremia, and urinary arginine
 vasopressin excretion, 329-333
 Hypothalamic-pituitary-adrenal axis,
 effect of betamethasone on,
 428-430
 Hypoxemia, fetal, 383
 Idiopathic intrauterine growth
 retardation (IUGR)
 maternal characteristics associated
 with, 180
 and non-IUGR, comparison of
 placental characteristics, 181
 placental pathology of, at term, 179-
 184
 Idiopathic thrombocytopenic purpura,
 in childhood, 450
 Immersion, daily, effect of on edema of
 pregnancy, 225-226
 Incompetent cervix. *See* Cervical
 incompetence
 Incubators, air-heated, 239, 241
 total heat loss in, 242
 Indomethacin, for fibroids, 185-189
 Infant mortality in San Diego, 497
 Infant-warming devices, efficiency of, 239
 Infasur, 415
 Infasurf, 414
 Infection
 intrapartum and postpartum, 45
 maternal genital, 45-46
 Inherited surfactant protein B
 deficiency in congenital alveolar
 proteinosis, 512
 Inspiratory timing in newborn infants,
 control of, 322-325
 Insulin-dependent diabetes mellitus
 (IDDM), 87

- genetic factors, 88-90
periconceptual genetic counseling of patients with, 90-91
- Insulin-dependent diabetic mothers, birth trauma data on, 205-208
- Interleukin-1 receptor antagonist, effect on hemodynamic manifestations of group B streptococcal sepsis, 507
- Intra-amniotic infection, detection of by gas-liquid chromatography, 452-455
- Intracranial hemorrhage, 448
risk of, after prenatal cocaine exposure in VLBW babies, 501-502
- Intracranial lesions, in small for gestational age infants, 153-154
- Intrapartum fetal monitoring, lowest gestational age, 18
- Intrauterine contraceptive devices (IUDs), removal of retained, in pregnancy, 139-141
- Intrauterine growth retardation (IUGR), 137
and preeclampsia, 258
- Intravascular transfusion, as treatment for nonimmune hydrops caused by fetomaternal hemorrhage, 22-24
- Intravenous gamma globulin, antenatal maternal infusions of, 448-450
- Intraventricular hemorrhage (IVH), as complication in long distance perinatal transport, 75-78
- Klippel-Trenaunay-Weber syndrome, 127, 128
- Laparotomy, exploratory, 103, 398
- Lecithin-cholesterol acyl transferase, role of, 509
- Leiomyomas, cystic degeneration of, masquerading as postoperative abscess, 175-177
- Leiomyoma uteri during pregnancy, indomethacin treatment for, 185-189
- Lermoyez's sign, 203
- Lidocaine, in dorsal penile nerve block, 216-217
- Life-style, effect on uterine contraction frequency, 489-492
- Light and neonatal eye, 501
- Literature-based quality assurance program, and VLBW discharge practices, 499
- Loop diuretics, relaxing effects of on large airways of newborn guinea pigs, 505
- Lower extremity anomalies, prenatal diagnosis of, 127-129
- Low transverse cesarean section (LTCS), trial of labor after prior, 80-81
- Lumbar punctures, and posthemorrhagic hydrocephalus, 508-509
- Lupus anticoagulant and/or anticardiolipin antibodies
combination therapy for, 147, 150
obstetric performance in patients with, 146-151
single-agent therapy for, 149
- Lymphangioma, massive lower extremity, prenatal sonographic findings of, 127-129
- Macrosomia
fetal, 486, 487
in insulin-dependent diabetic mothers, 205
- Magnesium sulfate, effect of on vascular actions of norepinephrine and angiotensin II, 477-480
- Magnetic resonance imaging (MRI)
in detection of intracranial venous thrombosis, 204
in pregnancy complicated with carcinoma of colon above rectum, 103
- Maternal education and neonatal outcome, 496
- Maternal-Fetal Medicine specialists
interpretation of fetal monitoring in perinatal sepsis, 28-29
survey on high-risk pregnancies, 17-20
- Maternal genital infection and gender, interaction of, 45-46
- Maternal septicemia, occurrence of with penicillin prophylaxis, 13
- Maternal serum alpha-fetoprotein (MS-AFP), 319-321
- Maternal serum glucose levels, control of, 484
- Mattress, heated, water-filled, 241-242
efficiency of, 245
total heat loss with, 242
treatment on, 245
- Meconium aspiration in piglets, treatment with surfactant and surfactant lavage, 506-507
- Meconium aspiration syndrome, 329
early management of, with various ventilation devices, 500
- Meconium, comparison of mechanical suction techniques, 499-500
- Medicaid
eligibility, 281
expanded coverage for low income women, potential effects of, 281-284
- Metabolic acidemia with hypoxia, hemodynamic responses to epinephrine during resuscitation in lambs, 510-511
- Milk temperature, effects of on feeding tolerance in preterm infants, 508
- Mixed venous oxygenation in critically ill neonates, 506
- Monash Medical Centre (Australia), 10-year experience in neonatal intensive care for extremely preterm infants, 164-168
- Myomas, 175-177
degenerated, effect of pregnancy on, 177
- Necrotizing enterocolitis, 432
- Neisseria gonorrhoeae*, 338, 368, 369
- Neonatal alloimmune
thrombocytopenia
after maternal immunization with paternal mononuclear cells, 448-450
bleeding problems in newborns, 450
- Neonatal asphyxia, 329
- Neonatal facility in China, 401-408
clinical care, 404-405
clinical facilities, 404
equipment and supplies, 404, 407
formal educational program, 405-406
- initial planning visit, 401-402
initial strategy, 402
laboratory and clinical services, 404
leadership and dependence on consultant expertise, 406-407
organization and leadership, 404
preliminary evaluation, 402-403
relative status of professional subgroups, 407
sociocultural barriers, 407
staffing, 404
strategic changes, 403
use as referral center, 404
- Neonatal hypoglycemia, persistent, alternate therapy for, 510
- Neonatal intensive care unit (NICU)
blood gas analysis in, 159
care and costs, 281-284
long distance transport to, 75
- Neonatal neutrophil motility, with adult fresh frozen plasma, 5-8
- Neonatal Nurse Practitioners, worth of, 496-497
- Neonatal polymorphonuclear leukocyte number and function, effect of labor and delivery on, 285-288
- Neonatal renovascular hypertension, treatment of with intravenous enalapril, 254-257
- Neonatal Resuscitation Program, 405
- Neonatal sepsis, group B streptococci as cause of, 304
- Neonatal thrombosis with anticardiolipin antibody in baby and mother, 409-410
- Neuroblastomas, 127, 128
- Nicotine, fetal cerebral effects, 270-273
fetal circulation, Doppler ultrasound investigation of, 271
vascular resistance, evaluation of, 271
- Nipple units, comparison of different, 265-269
- Nonimmune hydrops
caused by hemorrhage, 22-24
and fetal human parvovirus B19 infection, 66
- Non-insulin-dependent diabetes mellitus (NIDDM), 87
general considerations, 88
periconceptual genetic counseling of patients with, 91
- Noonan syndrome, 279
- Norepinephrine, effect of magnesium sulfate on vascular action of, 477-480
- Nosocomial infection in neutropenic low birth-weight infants of hypertensive mothers, 500-501
- Nutrient intake, measurement of by deuterium dilution in premature infants, 509-510
- Obstetric hemorrhage, treatment of by selective embolization, 441-444
- Oral glucose tolerance test (OGTT), 425
- Osmolality of amniotic fluid, effect on bacterial growth, 69-73
- Papanicolaou smear, 340, 342
- Passive immune thrombocytopenia, neonatal, 450
- Paternal mononuclear cell immunization, 450
- PathoDx, 304-305

- Peds system, 375
- Pena-Shokeir syndrome, 1-4
defined, 1
- Penicillin prophylaxis, effect on
premature rupture of
membranes, 11-15
- Perinatal mortality rate
placental abruption, 172
of small for gestational age infants,
135
- Perinatal sepsis
fetal monitoring in, 28-32
obstetric risk factors, 32
- Perinatal septicemia, 338
- Perinatal services in a metropolitan
area, effective model for
reorganization, 513-514
- Perinatal transport, long distance, 75-
78
complications, 75, 76-77
- Phadebact, 304-305
- pH of amniotic fluid, effect on
bacterial growth, 69-73
- Pheochromocytoma in pregnancy
hemodynamics associated with
diagnosis and treatment of, 464-
467
laboratory evaluation for, 465
- Phosphatidylglycerol (PG) in amniotic
fluid, use of, as criterion for fetal
lung maturation, 34-36
- Physical activity, effect on uterine
contraction frequency, 489-492
- Placental abruption
expectant management after
sonographic diagnosis, 170-173
perinatal mortality rate, 172
- Plasma alpha-fetoprotein, reduced
values of at early second
trimester, and hypertension,
319-321
- Plasma C3a desarg, 286
- Plasma lysozyme, 286
- Plasmapheresis, and persistent
postpartum HELLP syndrome,
120-122
- Platelet count, preeclampsia effect on,
378-379
- Pleural fluid analyses, 155
- Polyhydramnios in twin gestation,
reduction in middle cerebral
artery pulsatility index after
decompression of, 381-383
- Polymerase chain reaction (PCR)
in detecting DNA, 61-62
precautions against contaminations
and false-positive results, 62
- Polymorphonuclear leukocyte, 285-288
activation products, 286
counts, 286
motility, 286
- Polymorphonuclear (PMN) motility,
impairment in, 5-8
- Postpartum endometritis, 369
occurrence of with penicillin
prophylaxis, 13
preterm birth and, 43, 45
- Postpartum HELLP syndrome, persistent,
treatment with plasmapheresis,
120-122
- Prednisone, as glucocorticoid, 54
- Preeclampsia, 190
effect on platelet count, 378-379
patient characteristics, 358
severe
defined, 357
- in preterm pregnancy, 26-32
weeks gestation, 357-359
twin pregnancies complicated with,
258-260
- Pregestational diabetes and gestational
diabetes, distinction between,
487
- Pregnancy(ies)
atypical cervical cytology in, 340-343
and carcinoma of colon above
rectum, 102-108
diabetes mellitus in, 87-92
erythropoietin in, 233-235
glycemic control in, 207
high-risk, survey of American
obstetricians specializing in, 17-20
nicotine and, 270-273
in renal transplant recipients, 52-55
immunosuppressive medication
and, 54
serologic testing for HIV-1 in, 293-
295
- Pregnancy outcome, prediction of, by
combined analysis of fetal
electrocardiogram and systolic
time intervals, 348-352
- Premature infant formula (PIF)
following initial hospitalization, 502
iron fortified, during initial
hospitalization, 504
- Premature labor and delivery, 17-20
- Premature rupture of membranes
(PROM), 190, 452
chorioamnionitis following, 453
defined, 11
and delivery, time interval between,
354
Doppler blood flow velocity analysis
in, 353-355
effect of penicillin prophylaxis, 11-15
goal in management of patients with,
368
as major complication in twin
pregnancies, 326
penicillin prophylaxis effects, 11-15
preterm birth and, 43-48
and unfavorable cervix, management
of term patients with, 56-59
- Prenatal care
adequacy of, 282
adequate access to, and effect on
racial differences in prematurity
and mortality, 495
and birth outcome, 309-310
cost effectiveness of, 281-284
- Prenatal influences on formula feeding,
420-421
- Preterm birth (PTB), fetal gender
differences in, 43-48
- Preterm delivery
correlations of fetal growth and
placental pathology, 190-193
for diabetic patients, 484-488
- Preterm infants
effects of milk temperature on
feeding tolerance in, 508
extremely
hospital survival rates for, 166-167
survival prospects, 164-168
treatment decisions, 165
manometrics for, 497-498
respiratory control in, 322-325
sucking patterns of, 267
ventilator-dependent, 374-377
- Procainamide, and supraventricular
tachycardia conversion, 302-303
- Progressive atelectasis, 374
- Project HOPE, 401
- Prostaglandin E₂ gel induction
and prior low transverse cesarean
section, 80-83
safety and efficacy of, 80
- Prostaglandins, periosteal reaction
induced by, 279-280
- Proteinuria, associated with
pheochromocytoma, 466
- Pulmonary hypoplasia
with polyhydramnios and hydrops
fetalis, 9-10
prenatal ultrasonic prediction of,
334-337
- Pulmonary lobar sequestration, 223
- Pulmonary vasodilation, oxygen-
induced, and purine nucleotides,
506
- Pulsatility index of middle cerebral
artery, reduction after
amniocentesis, 381-383
- Racial differences in fetal growth, 473
- Radiant warmers, 239
- Renal transplantation, and pregnancy,
52-55
- Renovascular disease, as leading cause
of neonatal hypertension, 254
- Reservoir taps, and posthemorrhagic
hydrocephalus, 508-509
- Respirator weaning of preterm infants,
374-377
- Respiratory complications associated
with cryotherapy in premature
infants, 296-298
- Respiratory control in preterm infants,
322-325
- Respiratory distress syndrome (RDS),
329
commercial preparations for
treatment of, 414
effect of multiple doses of synthetic
surfactant on, 507
and penicillin prophylaxis, 13
and phosphatidylglycerol in amniotic
fluid, 34-36
two rescue doses of synthetic
surfactant, one year outcome,
513
- Resuscitation, newborn, estimating
birthweight for, 371-373
- Risk scores, obstetric, 388-393
- Scalp stimulation, and fetal heart rate
response, 228-232
- Septic shock, in young children, 435
- Serum erythropoietin in pregnancy,
233-235
- Short arm of chromosome 10, deletion
of, with severe hearing loss and
brainstem dysfunction, 299-301
- Shoulder dystocia, 486, 487
- Sinus thrombosis, 201-204
- Skeletal neurogenic atrophy, 1
- Small for gestational age (SGA) fetuses
importance of detecting, 135-138
umbilical artery or uteroplacental
velocimetry and, 250-253
- Small for gestational age (SGA) infants
incidence of morbidity, 152
and intracranial lesions, 152-153
perinatal mortality rate, 135
- Smith-Hodge pessary, 25
- Soluble interleukin-2 receptor levels in
infants with BPD, 498

- Sound levels and hypoxemia in preterm infants in NICU, 501
- Space-occupying lesions, in fetal thorax, 223-224
- Spleen, fetal
change in size before and after delivery, 363
contraction, cause of, 361
function, 361
measurements at different menstrual ages, 365
ultrasonographic assessment, 361-367
- Squamous atypia, 340
- "Standard of medical care," 495
- Stomach, fetal, and transvaginal sonography, 344-345, 346
- Stone clamp, in intrauterine device removal, 141
- Streptococcus agalactiae*, 338
- Streptococcus faecalis*, 338
- Streptococcus pneumoniae*, 338
- Streptococcus pyogenes*, 338
- Sucking patterns of neonates, 265-269
- Superior sagittal sinus thrombosis, noninvasive diagnosis of in neonates, 201-204
- Supraventricular tachycardia, in utero conversion, with digoxin and procainamide, 302-303
- Surfactants
clinical significance, 418
criteria for function, 417
low surface compressibility, 418
rapid adsorption and spreading, 417
therapeutic, surface tension of, 414-418
- Surfactometer, pulsating bubble, 415, 416
- Survanta, 414, 415
- Survival, neonatal, discrepancy between estimated and actual rates, 511
- Syndrome of inappropriate excretion of antidiuretic hormone (SIADH), 329
- Systolic time intervals, as predictor of pregnancy outcome, 348-352
- Systolic to diastolic (S/D) ratio
normal and abnormal umbilical arteries compared, 250-252
and resistance index (RI), mathematical relationship between, 94-100
- Tachyphylaxis, and ritodrine therapy, 458
- Termguard tocodynamometer, 489
- Term infants, sucking patterns of, 266-267
- Term patients, management of, with premature rupture of membranes and unfavorable cervix, 56-59
- Tetralogy of Fallot, 279
- Tetraphylline, 375
as adjuvant to respirator weaning, 376
in treatment of apnea of prematurity, 432
- Thermal conditions in neonatal care, assessment of, 239-245
- Thermal manikin
heated, for measuring heat loss, 239
premature baby size, use of, 239-245
- Thin-layer chromatography (TLC), in measuring phosphatidylglycerol in amniotic fluid, 34-36
- Thrombocytopenia, 378
associated with microangiopathic disease, 120
- Thrombosis, neonatal, 409-410
- Tocolytics
in placental abruption, 170-173
in preventing preterm birth, 394-396
- Tocolytic therapy, applicability of, 494
- Total creatine phosphokinase and its isoenzymes, 286-287
- Total parenteral nutrition (TPN), 261-262
- Transabdominal ultrasonography, in intrauterine device removal, 141
- Transient tachypnea of newborn, 329
- Transport of ill neonates over long distances, 75-78
mortality related to mode of transport, 76
transport patterns, 76
- Transvaginal sonography (TVS), 38
of fetal digestive system at 5-14 weeks gestation, 344-347
first trimester, efficacy of in detecting normal fetal development, 209-213
measurements of fetal heart at 11 to 17 weeks of gestation, 38-41
safety of, 212
- Tuberous sclerosis (TS)
prenatal echocardiographic marker of, 111-114
in utero diagnosis of, 111-112
- Twin gestations
and congenital parvovirus infection, intrauterine response in, 66-68
nonstress tests of, 460-462
- Twin pregnancies and preeclampsia, perinatal outcome of, 258-260
- Ultrasonic measurement of fetal abdomen in third trimester, intra- and interobserver variation, 385-387
- Ultrasound
in diagnosis of velamentous cord insertion, 123-126
endovaginal, 209
transvaginal. *See* Transvaginal sonography (TVS)
vaginal, 493
- Ultrasound-guided intrauterine device removal in pregnancy, 139-141
- Umbilical artery catheters, 254
placement success rates, 500
- Umbilical artery and uteroplacental velocimetry in low birthweight pregnancies, 250-253
- Umbilical blood flow, alternative method for measuring, 507-508
- Umbilical blood sampling,
percutaneous, for nonimmune hydrops caused by fetomaternal hemorrhage, 22
- Urinary arginine vasopressin excretion and hyponatremia in sick neonates, 329-332
- Uterine contraction frequency
climbing stairs and, 491
data analysis, 490
effect of alcohol and caffeine on, 491
effects of physical activity and life style on, 489-492
emotional stress and, 491
monitoring, 489-490
posture and, 491
tobacco smoking and, 491
walking and, 491
- Uteroplacental Doppler flow velocity waveform indices in normal pregnancy, 94-100
- Uteroplacental insufficiency, 173
- Vaginal delivery of vertex-presenting fetuses in prematurity, 162-163
- Varicella-zoster virus, transplacental immunity to in extremely low birthweight infants, 236-238
- Vasopressors, magnesium sulfate and, 477-480
- Velamentous umbilical cord insertion, clinical significance and sonographic diagnosis of, 123-126
- Velocimetry in low birthweight pregnancy, 250-253
- Ventilator-dependent preterm infants, successful weaning in, 374-377
- Vertical film surface balance, 414, 415-416
- Very low birthweight (VLBW) infants
analysis of discharge practices, 499
cardiopulmonary resuscitation in, 130-133
central venous catheters in care of, 154-158
early ontogeny of cortisol and cortisol binding globulin, 498
failed antenatal transfer of, 496
and vasopressor unresponsive hypotension, 132
- Waveform boundary indicator (WBI), 348-349
- Weaning preterm infants from ventilatory assistance, 374-377
- Wilms' tumor, 127, 128
- Yolk sac, and transvaginal sonography, 345, 346
- Zidovudine, during pregnancy, 247-249
pharmacokinetics studies, 247-248
